

Auto Le Book

A visual guide to the most iconic classic cars of every decade from the 1940s to the 1980s, featuring more than 1,300 photographs and two prints suitable for framing, and created in association with the Smithsonian Institution. From the Pontiac Chieftain to the Chevrolet Corvette, Classic Car is packed with the marques and models of every decade from the 1940s to the 1980s. Virtual tours offer close-up views of iconic models, and comprehensive catalogs showcase key features with detailed profiles and specifications. Double-page-spread images add flavor by showing the classics in action. To tell the complete story of classic cars, this book also profiles famous designers and manufacturers, like Ferdinand Porsche, and places the cars into wider cultural context by charting their enduring legacy as symbols of luxury and objects of desire. Classic Car is a complete celebration of classic cars and a must-have for all classic car collectors and enthusiasts.

Tale of two cities -- An urban century -- Softer, greener footpring -- New attitudes -- Innovations for sustainability -- Innovations for mass customization -- Innovations for connectivity -- Innovations for intelligent machines and autonomy -- Innovations in mobility modes -- Innovations in business models and marketplaces -- CHIP mobility -- Role for stakeholders -- Conclusions

The first and only “virtual gallery” with all or almost all the models produced by the Maranello firm from 1947 to the present day, drawn by an artist of the calibre of Giorgio Alisi. Detailed technical files and texts by Leonardo Acerbi, an established historian of the marque, complete this unique overview of the Prancing Horse and its history. First published in the mid-2000s and reprinted on a number of occasions, Ferrari All the Cars reviews, model by model, all the most significant cars produced by the Maranello firm from 1947 to the present day. From the Auto Avio Costruzioni of 1940, the Ferrari precursor, to the 125 S, the first car to carry the Prancing Horse badge and the Ferrari name, through to the latest Portofino, the reader explores unforgettable icons of automotive history. Among them, to mention but a few, are models such as the 250 GTs, the Testa Rossa, the 250 GTO, the 250 Le Mans and the 275 GTB, through to the latest creations - 812 Superfast, Portofino GTC4 Lusso e Monza SP1/SP2 - by way of the 365 GTB/4 “Daytona”, the 512 BB, the 308 GTB and many others. Then, naturally, there are all the F1 single-seaters from 1950 to the present day, those that have permitted the Prancing Horse to win 15 World Driver’s Championships and 16 Constructors’ titles, and the unforgettable Sports cars and Prototypes, undisputed protagonists for years in the enthralling endurance classics such as the Le Mans 24 Hours and the Targa Florio. The files on each model are complemented by an accompanying image, brief but pertinent contextual texts and detailed technical specifications. Ferrari All the Cars is a unique book allowing you to have a complete history of Ferrari and its unforgettable cars always to hand, an authentic vademecum of the Maranello firm. This new edition of the book has also been enriched with a series of files devoted to the unforgettable concept cars created by Pininfarina around Ferrari mechanicals. Iconic models such as the 365 P Speciale, the 250 P5, the P6, the 512 S and the Modulo, through to the Sergio, cars imbued with styling motifs that in many cases were to be transferred to the production models.

With the powerful, rhythmic sounds of Aboriginal English and Kokatha language woven through the narrative, Mazin Grace is the inspirational story of a feisty girl who refuses to be told who she is, determined to uncover the truth for herself. Growing up on the Mission isn't easy for clever Grace Oldman. When her classmates tease her for not having a father, she doesn't know what to say. Pappa Neddy says her dad is the Lord God in Heaven, but that doesn't help when the Mission kids call her a bastard. As Grace slowly pieces together clues that might lead to answers, she struggles to find a place in a community that rejects her for reasons she doesn't understand. In this novel, author Dylan Coleman fictionalizes her mother's childhood at the Koonibba Lutheran Mission in South Australia in the 1940s and 1950s.

Reviews of more than 165 automobiles, four-wheel drive vehicles, and compact vans are accompanied by specification data, the latest prices, and recommendations, as well as lists of warranties, and tips on financing and insurance

Autotheory--the commingling of theory and philosophy with autobiography--as a mode of critical artistic practice indebted to feminist writing and activism. In the 2010s, the term "autotheory" began to trend in literary spheres, where it was used to describe books in which memoir and autobiography fused with theory and philosophy. In this book, Lauren Fournier extends the meaning of the term, applying it to other disciplines and practices. Fournier provides a long-awaited account of autotheory, situating it as a mode of contemporary, post-1960s artistic practice that is indebted to feminist writing, art, and activism. Investigating a series of works by writers and artists including Chris Kraus and Adrian Piper, she considers the politics, aesthetics, and ethics of autotheory.

In 1935, when a small company in Coventry, England, launched a sporting saloon (i.e., sedan) called the Jaguar SS, it set in motion an inexorable process that would lead to Britain's most beloved line of high-performance automobiles. The Complete Book of Jaguar covers the SS and all of the Jaguar's subsequent production models, from the original SS Jaguar to today's F-Type sports cars, F-Pace books in the Complete Book Series, author Nigel Thorley organizes the content chronologically with entries for each year. Narratives for each discuss the cars and technology, while spec tables highlight key technical and performance specifications. Originally begun by a couple of motorcycle enthusiasts—William Lyons and William Walmsley—as a firm called the Swallow Sidecar Company, Jaguar v In England's bleak postwar years, Jaguar became a shining star—first with its XK120, followed by the XK140 and XK150. Sporting sedans like the Mark 2 and Mark X set the bar for luxury four-door transport in the '50s and '60s. Then Jaguar stunned the world with the achingly beautiful E-Type in 1961, a genuine 150 mph super sports car. Along the way, the company competed on road course and Aston Martin. Though Jaguar lost its way periodically in the modern era, it has bounded back stronger than ever in the twenty-first century with a strong lineup, including the new F-Type sports car and F-Pace SUV. The Complete Book of Jaguar is the essential guide to this important chapter in the history of sports and luxury automobiles.

The epic story also told in the film FORD V. FERRARI: By the early 1960s, the Ford Motor Company, built to bring automobile transportation to the masses, was falling behind. Young Henry Ford II, who had taken the reins of his grandfather's company with little business experience to speak of, knew he had to do something to shake things up. Baby boomers were taking to the road in droves, looking for a new sense of freedom. Ferrari, whose cars epitomized style, lorded it over the European racing scene. He crafted beautiful sports cars, "science fiction on wheels," but was also called "the Assassin" because so many drivers perished while racing them.Go Like Hell tells the remarkable story of how Henry Ford II, with the help of a young visionary named Lee Iacocca and a former racing champion turned engineer, Carroll Shelby, took on the world's greatest race car manufacturer, Ferrari. They would enter the high-stakes world of European car racing, where an adventurous few threw safety and sanity to the wind. They would design, build, and race a car that could beat Ferrari at his own game at the most prestigious and brutal race in the world, something no American car had ever done. Go Like Hell transports readers to a risk-filled, glorious time in this brilliant portrait of a risk-taking entrepreneur and "pilots" who would drive them to victory, or doom.

The first quarter of the 20th century was a time of dramatic change in auto racing, marked by the move from the horseless carriage to the supercharged Grand Prix racer, from the gentleman driver to the well-publicized professional, and from the dusty road course to the autodrome. This history of the evolution of European and American auto racing from 1900 to 1925 examines transatlantic racing, the open-wheel formula, and the straight-eight. It also explores the origins of the Bennett and Vanderbilt races, the early career of 'America's Speed King' Barney Oldfield, the rise of the speedway specials from Marmon, Mercer, Stutz and Duesenberg, and developments from Peugeot, Delage, Ballot, Fiat, and Bugatti. This informative work provides welcome insight into a defining period in motorsports.

"Le Corbusier, who famously called a house 'a machine for living, ' was fascinated--even obsessed--by another kind of machine, the automobile. His writings were strewn with references to autos ... In his 'white phase' of the twenties and thirties, he insisted that his buildings be photographed with a modern automobile in the foreground. Le Corbusier moved beyond the theoretical in 1936, entering the world of competition, submitting plans for 'a minimalist vehicle for maximum functionality, ' the Voiture Minimum. Despite Le Corbusier's energetic promotion of his design to several important automakers, the Voiture Minimum was never mass-produced. This book is the first to tell the full and true story of Le Corbusier's adventure in automobile design. Architect Antonio Amado describes the project in detail, and the book includes a selection of his letters and documents. Modernist utopian urban visions, and to the automobile design projects of other architects including Walter Gropius and Frank Lloyd Wright. The story is supported by many images and documents, including architects' favorite cars, sketches and models of the Voiture Minimum, and copies of Le Corbusier's correspondence with prospective manufacturers."--Jacket.

This collection of stories profiling one hundred beautiful vehicles (and their owners) is the ultimate gift book for car lovers. New York Times best-selling author and popular Wall Street Journal "My Ride" columnist A.J. Baime selects the one hundred cars, motorcycles, and other vehicles to fill the dream garage. Stunning photography and Baime's engaging essays celebrate everything drivers love about their cars: the 1965 Ford Mustang, the 1967 Chevrolet, the 1968 Ford Mustang, the 1969 Ford Mustang, the 1970 Ford Mustang, the 1971 Ford Mustang, the 1972 Ford Mustang, the 1973 Ford Mustang, the 1974 Ford Mustang, the 1975 Ford Mustang, the 1976 Ford Mustang, the 1977 Ford Mustang, the 1978 Ford Mustang, the 1979 Ford Mustang, the 1980 Ford Mustang, the 1981 Ford Mustang, the 1982 Ford Mustang, the 1983 Ford Mustang, the 1984 Ford Mustang, the 1985 Ford Mustang, the 1986 Ford Mustang, the 1987 Ford Mustang, the 1988 Ford Mustang, the 1989 Ford Mustang, the 1990 Ford Mustang, the 1991 Ford Mustang, the 1992 Ford Mustang, the 1993 Ford Mustang, the 1994 Ford Mustang, the 1995 Ford Mustang, the 1996 Ford Mustang, the 1997 Ford Mustang, the 1998 Ford Mustang, the 1999 Ford Mustang, the 2000 Ford Mustang, the 2001 Ford Mustang, the 2002 Ford Mustang, the 2003 Ford Mustang, the 2004 Ford The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. "People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching, beautifully written, vivid, disturbing (and occasionally wryly funny) book." —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. Nomadland tells a revelatory tale of the dark underbelly of the American economy—one which foreshadows the precarious future that may await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.

The celebrated chief executive officer of Chrysler Corporation offers a straightforward account of his career at Ford, of the recent resurgence of Chrysler, and of what is wrong and right with American business

ORPHAN, CLOCK KEEPER, AND THIEF, twelve-year-old Hugo lives in the walls of a busy Paris train station, where his survival depends on secrets and anonymity. But when his world suddenly interlocks with an eccentric girl and her grandfather, Hugo's undercover life, and his most precious secret, are put in jeopardy. A cryptic drawing, a treasured notebook, a stolen key, a mechanical man, and a hidden message from Hugo's dead father form the backbone of this intricate, tender, and spellbinding mystery.

Winner of the Motor Press Guild Best Book of the Year Award & Dean Batchelor Award for Excellence in Automotive Journalism For fans of The Boys in the Boat and In the Garden of Beasts, a pulse-pounding tale of triumph by an improbable team of upstarts over Hitler's fearsome Silver Arrows during the golden age of auto racing As Nazi Germany launched its campaign of racial terror and pushed the world toward war, three unlikely heroes—a driver banned from the best European teams because of his Jewish heritage, the owner of a faltering automaker company, and the adventurous daughter of an American multimillionaire—banded together to challenge Hitler's dominance at the Grand Prix, the apex of motorsport. Bringing to life this glamorous era and the sport that defined it, Faster chronicles one of the most inspiring, death-defying upsets of all time: a symbolic blow against the Nazis during history's darkest hour.

Tesla is the most exciting car company in a generation . . . but can it live up to the hype? Tesla Motors and CEO Elon Musk have become household names, shaking up the staid auto industry by creating a set of innovative electric vehicles that have wowed the marketplace and defied conventional wisdom. The company's market valuation now rivals that of long-established automakers, and, to many industry observers, Tesla is defining the future of the industry. But behind the hype, Tesla has some serious deficiencies that raise questions about its sky-high valuation, and even its ultimate survival. Tesla's commitment to innovation has led it to reject the careful, zero-defects approach of other car manufacturers, even as it struggles to mass-produce cars reliably, and with minimal defects. While most car manufacturers struggle with the razor-thin margins of mid-priced sedans, Tesla's strategy requires that the Model 3 finally bring it to profitability, even as the high-priced Roadster and Model S both lost money. And Tesla's approach of continually focusing on the future, even as commitments and deadlines are repeatedly missed, may ultimately test the patience of all but its most devoted fans. In Ludicrous, journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day-to-day realities of the company—and the cars it produces. Blending original reporting and never-before-published insider accounts with savvy industry analysis, Niedermeyer tells the story of Tesla as it's never been told before—with clear eyes, objectivity and insight.

"I don't want you to rehabilitate me," Philip Roth said to his only authorized biographer, Blake Bailey. "Just make me interesting." Granted complete independence and access, Bailey spent almost ten years poring over Roth's personal archive, interviewing his friends, lovers, and colleagues, and listening to Roth's own breathtakingly candid confessions. Cynthia Ozick, in her front-page rave for the New York Times Book Review, described Bailey's monumental biography as "a narrative masterwork ... As in a novel, what is seen at first to be casual chance is revealed at last to be a steady and powerfully demanding drive. ... under Bailey's strong light what remains on the page is one writer's life as it was lived, and?almost?as it was felt." Though Roth is generally considered an autobiographical novelist—his alter-egos include not only the Roth-like writer Nathan Zuckerman, but also a recurring character named Philip Roth—relatively little is known about the actual life on which so vast an oeuvre was supposedly based. Bailey reveals a man who, by design, led a highly compartmentalized life: a tireless champion of dissident writers behind the Iron Curtain on the one hand, Roth was also the Mickey Sabbath-like roué who pursued scandalous love affairs and aspired "[t]o affront and affront and affront till there was no one on earth unaffronted"—the man who was pilloried by his second wife, the actress Claire Bloom, in her 1996 memoir, Leaving a Doll's House. Towering above it all was Roth's achievement: thirty-one books that give us "the truest picture we have of the way we live now," as the poet Mark Strand put it in his remarks for Roth's Gold Medal at the 2001 American Academy of Arts and Letters ceremonial. Tracing Roth's path from realism to farce to metafiction to the tragic masterpieces of the American Trilogy, Bailey explores Roth's engagement with nearly every aspect of postwar American culture.

Data is fundamental to the modern world. From economic development, to healthcare, to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this bias, in time, money, and often with their lives. Celebrated feminist advocate Caroline Criado Perez investigates shocking root cause of gender inequality and research in Invisible Women<, diving into women's lives at home, the workplace, the public square, the doctor's office, and more. Built on hundreds of studies in the US, the UK, and around the world, and written with energy, wit, and sparkling intelligence, this is a groundbreaking, unforgettable exposé that will change the way you look at the world.

By the early 1960s, the Ford Motor Company, built to bring automobile transportation to the masses, was falling behind. Young Henry Ford II, who had taken the reins of his grandfather s company with little business experience to speak of, knew he had to do something to shake things up. Baby boomers were taking to the road in droves, looking for speed not safety, style not comfort. Meanwhile Enzo Ferrari, whose cars epitomized style, lorded it over the European racing scene. He crafted beautiful sports cars, "science fiction on wheels," but was also called "the Assassin" because so many drivers perished while racing them. " Go Like Hell "tells the remarkable story of how Henry Ford II, with the help of a young visionary named Lee Iacocca and a former racing champion turned engineer, Carroll Shelby, concocted a scheme to reinvent the Ford company. They would enter the high-stakes world of European car racing, where an adventurous few threw safety and sanity to the wind. They would design, build, and race a car that could beat Ferrari at his own game at the most prestigious and brutal race in the world, something no American car had ever done. " Go Like Hell "transports readers to a risk-filled, glorious time in this brilliant portrait of a rivalry between two industrialists, the cars they built, and the "pilots" who would drive them to victory, or doom. "

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

From the first motor cars and classic cars to today's supercars and Formula 1, this is the ultimate book about the history of the car. Packed with stunning photography, and featuring more than 2,000 cars, Car shows you how cars have evolved around the world over the the last 130 years, and their impact on society as objects of curiosity, symbols of status and luxury, and items of necessity. Extensive catalogues showcase the most important marques and models, organized in categories such as sports cars, convertibles, and city compacts. The book also features virtual photographic tours of some of the most iconic cars from each era such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and Ferrari F40, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the men, machines, and magic that helped create the car world's most famous marques and made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love Car. It is simply a must-have title for all car enthusiasts.
