In this comprehensive guide, Susan Miller Cavitch covers everything you need to know to make your own soaps. Learn the basic techniques for crafting oil-, cream-, and vegetable-based soaps, and then start experimenting with your own personalized scents and effects. Cavitch provides tips for making more than 40 different specialty soaps, showing you how to design colorful marbled bars and expertly blend ingredients to create custom fragrances. You'll soon be making luxurious soaps at a fraction of the cost of boutique products. Important Notice Early printings of this book contain a recipe variation in a sidebar note on page 36. As a result of further testing, author Susan Miller Cavitch and Storey Publishing strongly recommend that you do not try this variation. Adding honey when you are combining the sodium hydroxide and water may result in a stronger reaction with more intense heat. The mixture may bubble up quickly and come out of the pot, posing a potential hazard.

Created by the expert hosts of the popular *Well-Fed Women* Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality-not the quantity-of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat-not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the *Well-Fed Women* Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In *Coconuts and Kettlebells*, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods-grains, dairy, vegetable oils, and refined sugar-that cause the most health problems among women. While many diets require you to eliminate these foods entirely, *Coconuts and Kettlebells* provides an easy-to-follow step-by-step program to

test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, Coconuts and Kettlebells provides the knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. Coconuts and Kettlebells is illustrated with color photos throughout.

You are certainly going to learn that. The skin is the largest organ and it requires a lot of attention in order to stay healthy. Depending on your age, diet and genetics you will primarily fall into one of the following 5 skin types: 1. Normal Skin The simplest to maintain normal skin has little to no oily spots, maintains regular circulation with little to no trouble spots. It's fairly elastic and looks healthy with very little make-up and attention. 2. Oily Skin Most prone to breakouts, the trouble zones are usually in the T zone of your face (forehead, nose and chin); oily skin tends to have oversized pores and can look greasy or shiny. With the right creams and proper diet its oil levels can be maintained. Oily skin tends not to have much wrinkling or aging. 3. Dry Skin Most people with dry skin feel tightness after washing their face and easily flake around the mouth and nose with dry spots. Dry skin is prone to aging and wrinkling and it's important to properly moisturize and nourish it regularly. 4. Sensitive Skin The sensitive skin type becomes irritated easily, gets red and dry spots and breaks out easily. This skin type is like a historical map - it tends to wear all of its battles for all to see. The type of creams and lotions applied on sensitive skin is extremely important

as an irritation or reaction can occur with certain ingredients and chemicals. 5. Combination Skin The most common skin type in women, combination skin is both oily and dry. Combination skin tends to be dry on the cheeks and around the eyes and oily spots on the forehead and nose. IT requires more cleansing in the oily areas and sensitive creams without too much oil in the dry areas. In this guide we focus on the three extreme skin cases grouping normal, combination and sensitive into a Sensitive Category. Because combination and normal skin is the most adaptable to most products, anything created for sensitive skin will only promote health and the look of younger, suppler skin with a clear complexion. The other two are oily and dry skin types.
