Substantively, the

Online Library Encyclopedia Of Counseling

Encyclopedia draws from four major areas of research relating to adolescence. The first broad area includes research relating to "Self, Identity and Development in Adolescence". This area

Online Library Encyclopedia Of Counseling

covers research relating to identity, from early adolescence through emerging adulthood; basic aspects of development (e.g., biological, cognitive, social); and foundational

Online Library Encyclopedia Of Counseling

developmental theories. In addition, this area focuses on various types of identity: gender, sexual, civic, moral, political, racial, spiritual, religious, and so forth. The second broad area centers on

Online Library Encyclopedia Of Counseling

"Adolescents' Social and Personal Relationships". This area of research examines the nature and influence of a variety of important relationships, including family, peer, friends, sexual and

Online Library Encyclopedia Of Counseling

romantic as well as significant nonparental adults. The third area examines "Adolescents in Social Institutions". This area of research centers on the influence and nature of important institutions that

Trauma is defined as a sudden, potentially deadly experience, often leaving lasting, troubling memories. Traumatology (the study of trauma, its effects, and methods to modify effects) is exploding in terms of

expanding in terms of scope.
Originally a narrow
specialty within emergency
medicine, the field now
extends to trauma
psychology, military
psychiatry and behavioral

Online Library Encyclopedia Of Counseling

health, post-traumatic stress and stress disorders, trauma social work, disaster mental health, and, most recently, the subfield of history and trauma, with sociohistorical examination of long-term effects and

Online Library Encyclopedia Of Counseling

meanings of major traumas experienced by whole communities and nations, both natural (Pompeii, Hurricane Katrina) and man-made (the Holocaust, 9/11). One reason for this expansion involves important

Online Library Encyclopedia Of Counseling

scientific breakthroughs in detecting the neurobiology of trauma that is connecting biology with human behavior, which in turn, is applicable to all fields involving human thought and response, including but not limited to

Online Library Encyclopedia Of Counseling

psychiatry, medicine and the health sciences, the social and behavioral sciences, the humanities, and law.

Researchers within these fields and more can contribute to a universal understanding of immediate

Online Library Encyclopedia Of Counseling

and long-term consequences—both good and bad—of trauma, both for individuals and for broader communities and institutions. Trauma encyclopedias published to date all center around

Online Library Encyclopedia Of Counseling

psychological trauma and its emotional effects on the individual as a disabling or mental disorder requiring mental health services. This element is vital and has benefited from scientific and professional

Online Library Encyclopedia Of Counseling

breakthroughs in theory, research, and applications. Our encyclopedia certainly will cover this central element, but our expanded conceptualization will include the other disciplines and will move

beyond the individual.
This thoroughly expanded edition of Howard Rosenthal's Human Services Dictionary is an essential resource for counselors tackling licensing and certification exams such as
