Jeremy Corbyn's Labour stands on the brink of power, promising a fundamental re-ordering of British politics. But what, in practice, will this entail? How can a radical government stand up to an establishment that is hostile to any significant redistribution of wealth and power? People Get Ready dives into the nitty gritty of what's needed to bring about transformative change. Unlike a few years ago, the left's problem is no longer a shortage of big ideas. Inside and outside the Labour Party, an agenda for new forms of public and community ownership is taking shape. Today the biggest danger facing the left is lack of preparedness—the absence of strategies that can make these ideas a reality. People Get Ready/ draws on previous attempts at radical change, from the election of Labour at the end of the Second World War and the progressive early days of Mitterrand's presidency in France, to Tony Benn's battles with Harold Wilson and Margaret Thatcher's icy insistence that there was no alternative to free markets. These stories highlight the importance of knowing your allies and, even more, your enemies, of being ready to deal with sabotage and resistance from the highest levels, of being bold enough to transform the structures of government, and of having a mass movement that can both support the leadership and hold it to its radical programme when the going gets tough. Remarkably, democratic socialism in Britain is closer to government than in any other European country. The responsibilities this brings for those supporting the Corbyn project are as great as the opportunities it presents. But there isn't much time to get ready.

AI is all around us today, in more places than you think! This book covers the basics of artificial intelligence and machine learning for children, with concepts that range from the very first ideas about A.I. through the latest algorithms that today's leading computer scientists are working on. For illustration, the book uses real-world examples of today's A.I., including cool applications in the fields of music, art, poetry, language, robotics, cars, rockets, video games, and more. Designed for readers who may not have a background in computers or programming, the book touches on math, computer architecture, logic, and simple programming ideas, along with activities that students can try themselves. We discuss some of the social and ethical implications of artificial intelligence from various angles, including public safety, bias, and more. With inset historical facts, illustrations, and bits of trivia about AI and computing in each chapter, the book contains the essential knowledge that a young person needs to understand how and why the world of A.I. has come to be, and quite possibly, where it's headed in the very near future.

You've decided to prepare for earthquakes, but it can be a little overwhelming - where do you start? "Sofie and Daniel Get Ready for Earthquakes" uses the art of storytelling to make getting ready easier, more effective, and more fun for children and parents. This book has the most recent information, from trusted sources, all together, in one place. The basics can be done in one day. Reviewed by earthquake and tsunami experts, the 40 page book includes a full-color, charmingly illustrated story, written for parents to read to their young children. It helps kids understand earthquakes, shows kids and parents how to 'drop, cover, and hold on' properly, and helps kids feel less afraid when earthquakes happen. Parents and kids have all the information, lists, and the fill-in-the-blank forms they need to prepare for earthquakes together. One parent said this about the book: "The story held my four year old's attention. It's funny and the rest of the pages are these great cut-out emergency plan forms, emergency kit lists, and the like. As soon as we finished reading, my son asked if he could make his own earthquake emergency kit."

The Bergen County Academies is one of the best high schools in the world, and every resident of Bergen County has a chance of becoming a BCA student. I wrote this book to help you do just that. The Get Ready Guide contains 12 chapters that cover all the math and essay topics and tricks you will need to know for the test. Emphasis throughout the book and in chapter 11 is given to solving problems without using a calculator because the use of calculators is not allowed on the Bergen Academies admission test. This new third edition of The Get Ready Guide for the 2014 BCA test has: 1.A completely new essay section that covers the structure of the essay, important writing techniques, and important writing tricks. The essay section covers organization, clarity, word choice, transitions, grammar, and language. Also in this new section are sample essays with detailed commentary and step by step examples on each paragraph. 2.A BCA level practice sheet that is answered in details. 3.A full length BCA math test that is identical in level and format to the actual BCA practice tests. All this is in addition to the 2000 practice questions from the past edition. Be sure to email us after buying the book for free videos, extra practice, and complimentary essay revision. Getting Ready For Heaven is an information-packed book that helps prepare you to be spiritually, personally, and legally ready for Heaven. In her book, Jan shares information she has learned along the way to help you prepare for everything associated with your passing. From information on trusts and deeds to preparing for the funeral and beyond, this book will help you sort your affairs so that you can rest assured your family will not have to carry the burden that comes with being unprepared.

You've accepted the invitation. Are you ready to take the next step? From the New York Times bestselling author of Dinner with a Perfect Stranger, Open will forever change the way you think about faith. It wasn't the end of the world. It was just the end of Emma Jameson's world. Fresh off the heels of a devastating breakup and floundering in her career, Emma is struggling to come to grips with why God allows so much pain in our lives, why He seems so absent when she needs Him most, and why the Gospel accounts--our supposed guide for how to lead a contented Christian life--feel so completely irrelevant. Then one day, a mysterious envelope arrives in Emma's mailbox with the word Open written on the outside. Inside the envelope is a card bearing the following message: "For a real adventure with Jesus, go through the nearest open door." Skeptical, but having absolutely nothing to lose, Emma steps through the pantry door, only to find herself instantly transported back to the first century, where she is taken on a personal tour of various Gospel accounts by none other than Jesus himself--an experience that radically challenges Emma's perception of the Gospels and what it really means to be a Christian.

Many opportunities surface only once. When meeting challenges, too often you'll only fire off one round. Make it your best shot. In 3 to Get Ready, Frank Herbert Spittle reviews life's aspects through "the way I see it," examining mistakes, and remedies for surviving rough patches. He offers a collection of essays, examinations, revelations, memoirs, and lamentations, all spiced with the humor found throughout his writings. The big puzzle: how to prepare the way for enjoying ones hundredth birthday. It's a large order, but everyone alive holds the gift of thirty additional years more than generational predecessors. We're all living longer.

Can I drink the water? But I don't speak the language. You want me to sleep where? They eat what? How am I going to raise that much money? Is it really God's will for me to go? I don't know how to share the gospel. Are you ready? More than one million people will go into all the world on short-term missions trips this year. Are you ready to be one of them? Anne-Ceri and Greg have been in the field and led teams there-and back. They will help you prep and pack for the trip, put their arms around you while you're gone, and offer perspective as you reenter "normal" life. How to Get Ready for Short-Term Missions will help you: Pack your suitcase and prepare your heart Build genuine relationships with the locals Understand cultural differences Deal with physical fatigue Combat stretched emotions There's even a chapter for clanny-handed parents! With humor and experience, Anne-Ceri and Greg ask questions you can't hide from and help you focus on your true mission.

What is the smartest, most celebrated game show of all time? In this insider's guide, discover the rich history of Jeopardy! -- the beloved game show that has shaped our culture and entertained audiences for years. Jeopardy! is a lot of things: record-setting game show, beloved family tradition, and proving ground for many of North America's best and brightest. Nearly four decades into its current edition, Jeopardy! now finds itself facing unprecedented change. This is the chronicle of how the show became a cross-generational touchstone and where it's going next. ANSWERS IN THE FORM OF QUESTIONS dives deep behind the scenes, with longtime host Alex Trebek talking about his life and legacy and the show's producers and writers explaining how they put together the nightly game. Readers will travel to bar trivia showdowns with the show's biggest winners and training sessions with trivia whizzes prepping for their shot onstage. And they'll discover new tales of the show's most notable moments-like the time the Clue Crew almost slid off a glacier-and learn how celebrity cameos and Saturday Night Live spoofs built a television mainstay. ANSWERS IN THE FORM OF QUESTIONS looks to the past -- and the future -- to explain what Jeopardy! really is: a tradition unlike any other.
